

# Fugro Spatial Solutions Pty Ltd

Spatial data is recognised as a key decision making tool for industry, commerce and the community. Our professional services support a range of industries and applications.

## Service and Innovation

Fugro Spatial Solutions are at the forefront of spatial service provision. Appropriate solutions are available to clients from our combination of extensive expertise and the latest technologies in digital airborne sensors, terrestrial and airborne laser scanning, topographic surveying, high precision dimensional control surveying, mapping, photogrammetry, geographic information systems (GIS), satellite remote sensing and data integration.

Ground Surveying

## Extensive Experience

The depth and range of experience of Fugro Spatial Solutions provide value and dependability to our diverse range of clients - nationally and internationally. Projects have been undertaken in over 20 countries.

Piping

## Size and Reliability

With over 100 staff and the latest technologies, Fugro Spatial Solutions possess considerable resources. These resources are backed by those of the global Fugro NV Group generating a significant network across more than 250 offices in over 60 countries, with a team of more than 14000 staff. This network is characterised by strength, depth and diversity of resources and expertise.

Aircraft

# Fugro Spatial Solutions Pty Ltd

## Aerial Survey

- Topography LiDAR
- Latest high-end digital sensors
- Precision digital photogrammetric systems
- Airborne Radar (GeoSAR IFSAR)

## Digital Mapping

- Digital Terrain Models
- Volumetric determination
- Digital orthophotos
- Feature capture & attribution
- Topographic mapping & revision
- Satellite data processing

## GIS Solutions

- GIS Applications - review, design & implement
- Oracle specialisation
- Data integration / conversion
- Strategic spatial consulting
- Data warehousing & management

## Survey Services

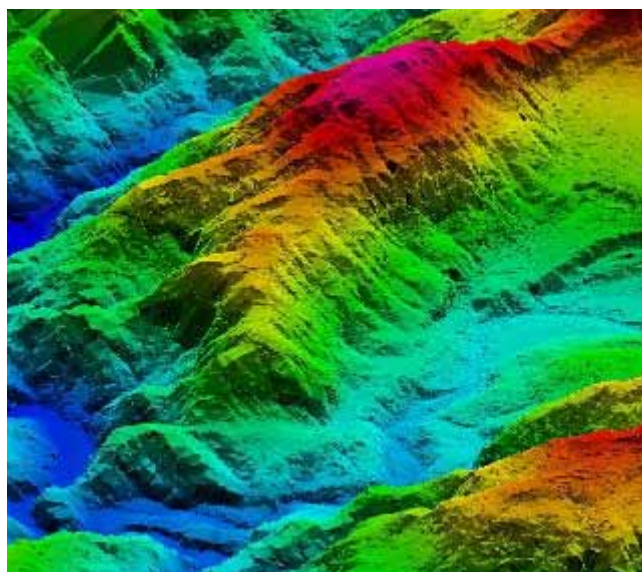

- Cadastral & Tenure surveys
- Engineering & Mining surveying
- Topographic surveys
- GPS surveys
- Dimensional Control
- Structural monitoring
- Machinery alignment
- Terrestrial LiDAR

## Specialised Services

- 3D modelling & fly throughs
- Cloud seeding
- Image classification

## Satellite Imagery

- Optical & Radar

### PERTH

18 Prowse Street, West Perth, WA 6005  
Telephone : +61 (8) 9282 4100  
Email : reception@fugrospatial.com.au

### MELBOURNE

Level 7, 390 St Kilda Road, Melbourne, VIC 3004  
Telephone : +61 (3) 9780 0610
